

TOWN OF MANSFIELD

Town Of Mansfield Conducting a Comprehensive Police Services Study

October 27, 2010 – The Town of Mansfield is engaging in a police services study. The study, which was identified in Mansfield 2020: A Unified Vision, our town-wide strategic plan, will help determine the current and future police service needs of the Town of Mansfield. In particular, the study will evaluate four service delivery options.

An important part of this study will include soliciting stakeholder input through focus groups, surveys, and public information sessions. We are attempting to solicit feedback from a wide cross-section of stakeholders in the community such as residents, students that live off-campus, business owners and landlords. **Members of the public are encouraged to participate in a brief online survey about police services in Mansfield.** The survey can be completed at <http://www.surveymonkey.com/s/MansfieldPoliceSurvey>. Members of the public without internet access can access public computers at the Mansfield Public Library, Mansfield Community Center, or Mansfield Senior Center.

For additional information on the Town of Mansfield Police Service Study please visit www.mansfieldct.gov.
